

JERICHO K-8 PROVINCIAL SCHOOL FOR THE DEAF And BURNABY MAYWOOD K-8 SCHOOL | Vancouver, British Columbia, Canada

The Maywood K-8 School provided specifically design space for the Jericho K-8 Provincial School for the Deaf as well as traditional students from the community. Importantly, the programmatic solution provided a seamless transition from the early elementary grades, intermediate grades, to the 6-8 grade middle school.

Particular attention was paid to the special requirements of the very young deaf student to insure a safe and nurturing environment with small learning spaces and an age/size appropriate "community" model.

Full attention to other physical handicaps which often accompany a hearing impairment were also made age and size sensitive.
