

HIGHLAND PARK HIGH SCHOOL | Highland Park, Texas

The Highland Park High school is recognized as one of the highest achieving schools in the nation. Franklin Hill & Associates was selected as the planning firm for renovation and remodeling to meet a variety of changing educational needs. This project was particularly challenging because of the extreme cost limitations resulting from the State of Texas funding formula related to income redistribution of educational construction funding.

Hill's work included a high school analysis of existing conditions and future needs.
